RE: SANParks Consent to proceed with the Maintenance Management Plan for the upgrade of the existing slipway adjacent to the Knysna Yacht Club

bontebok

The proposal is to upgrade the existing slipway, on the same footprint, adjacent to the Knysna Yacht Club. The slipway is located within the Biodiversity Control Area of the Knysna Protected Environment in terms of the Regulations for the Proper Administration of the Knysna Protected Environment (GN 1175 of 2009).

Red=existing slipway

Green= GRNP

A DEA-Garden Route Environmental Forum meeting to discuss the project and a site visit took place on 6 March 2019.

namaqua

table mountain

The upgrade will take place on the existing footprint. Wood will be replaced by concreted to make it possible for large vessels to be launched. A Maintenance Environmental Management Plan is adequate as a BAR is not triggered.

tankwa karoo

DEA is the Competent Authority to approve the Maintenance Environmental Management Plan. SANParks will provide comments as required during the planning and construction phases.

SANParks hereby gives consent that the Maintenance Management Plan for the upgrade of the existing slipway in the biodiversity control area, adjacent to the Knysna Yacht Club, can proceed. Please submit the building plans to SANParks when they become available.

All relevant legislation and by-laws must be complied with.

SANParks reserves the right to revise initial comments if additional information becomes available.

Yours sincerely

Paddy Gordon
