

To develop, manage and promote a system of national parks that represents biodiversity and heritage assets by applying best practice, environmental justice, benefit-sharing and sustainable use.

19 October 2016

REF: GRNP/16/3/2/Crabs Creek

Eco Route Environmental Consultancy

Attention: Janet Ebersohn

**PROPOSED DEVELOPMENT ON PORTION 29 OF FARM UITZICHT 216, BELVIDERE, KNYSNA**

With reference to the discussion meeting held on the 17<sup>th</sup> October 2016 between Eco Route Environmental Consultants and SANParks regarding the proposed development of Farm Uitzicht, Belvidere also known as Crabs Creek I hereby advise you that we submitted the Shoreline Stability Assessment and Abiotic Design Parameters for Crabs Creek to our Scientific Services Division for comments.

We will only be in a position to continue discussions regarding this development once we received comments back from them. The urgency to comment on the document was highlighted to Scientific Services but it is a bit short notice to expect a reply within this week still.

I would advise that you request relaxation on the public participation due dates as we may not be in a position to finalise our discussion before the end of October 2016.

Yours faithfully

Johan de Klerk
